

SAHID AL MASUD AAYAN

REACT DEVELOPER

PROFILE

Passionate React Developer skilled in building high-performance, user-focused web applications. Proficient in HTML5, CSS3, JavaScript, Redux, and frameworks like Tailwind CSS and Bootstrap. Experienced in responsive design, team collaboration, and delivering optimized solutions that elevate user experience.

WORK EXPERIENCE

ProChat

A chatting app where you can chat with your friends.

Made with React, Firebase and Redux, in prochat you can register an account, send friend requests to your friends and chat with them anytime and also block or unblock them .It is beautifully designed and made responsive with Tailwind CSS.

LaptopHut

An ecommerce store where you can shop laptops.

Made with React, Firebase and Redux, here you can add your items in cart anytime and also remove them as your wish. When you purchase them, the data will be stored in Firebase realtime database

To-do App

An To-do app where you can manage your daily tasks.

Made with React, Firebase and Redux, you can create your own account and add your own personal works or remove them anytime you wish. Whenever you login in your account, you can see your own tasks anytime.
